

**PRESTON COSSLETT KEMENY**  
e-mail: [preston.kemeny@gmail.com](mailto:preston.kemeny@gmail.com)  
website: [ElementalCycles.org](http://ElementalCycles.org)

The University of Chicago  
5734 South Ellis Avenue  
Chicago, IL, 60637

## **PROFESSIONAL APPOINTMENTS**

---

**The University of Chicago** 2022 – present  
T.C. Chamberlin and NSF EAR Postdoctoral Fellow, Department of the Geophysical Sciences

## **EDUCATION**

---

**California Institute of Technology** 2016 – 2022  
Ph.D. in Geochemistry, Division of Geological and Planetary Sciences  
Defense May 10<sup>th</sup>, 2022; PhD awarded June 10<sup>th</sup>, 2022. Cumulative GPA: 4.1  
Thesis title: *A fluvial perspective on the role of sulfide oxidation in the global carbon cycle*  
Advisors: Jess Adkins, Woodward Fischer

**California Institute of Technology** 2018  
M.S. in Geochemistry, Division of Geological and Planetary Sciences

**Princeton University** 2011 – 2015  
A.B. in Geoscience, *summa cum laude*. Certificates in Environmental Studies, Planets & Life  
Cumulative GPA: 3.8, GPA in geology courses: 4.0  
Thesis title: *Seasonality in the Antarctic Ocean: Late Summer Nitrate Isotope Measurements from the Pacific Sector and a Seasonal Model of the Upper Water Column*  
Advisors: Daniel Sigman, John Higgins

## **FELLOWSHIPS AND AWARDS**

---

- T.C. Chamberlin Postdoctoral Fellowship (The University of Chicago) 2022 – present
- NSF Division of Earth Sciences Postdoctoral Fellowship 2022 – present
- Stein-Cohen/Jacobs Hertz Fellowship, Fannie and John Hertz Foundation 2017 – 2022
- National Defense Science and Engineering Graduate Fellowship 2016 – 2019
- Honorable mention, National Science Foundation Graduate Fellowship 2016
- Peirce fellowship (awarded as a prospective Harvard graduate student, declined) 2016
- Edward Sampson, Class of 1914, Prize in Environmental Geosciences (Princeton) 2015
- Sigma Xi Book Award (Princeton, awarded for excellence in research) 2015

## **INVITED SEMINARS**

---

- |   |                |
|---|----------------|
| [18] Texas A&M, department seminar                                      | March 2024     |
| [17] Stanford University, department seminar                            | January 2024   |
| [16] University of Illinois Urbana-Champaign, department seminar        | November 2023  |
| [15] UC Santa Barbara, department seminar                               | September 2023 |
| [14] University of Victoria, department seminar                         | September 2023 |
| [13] UC San Diego, Geoscience/Marine Chemistry and Geochemistry seminar | September 2023 |
| [12] University of Calgary, department seminar                          | April 2023     |
| [11] Dartmouth College, department seminar                              | March 2023     |
| [10] Rice University, graduate interdisciplinary Earth science seminar  | March 2023     |
| [9] Duke University, department seminar                                 | February 2023  |
| [8] Harvard University, seminar for geochemistry/geobiology groups      | December 2022  |

[7] Boston College, department seminar	December 2022
[6] Colorado State University, department seminar	October 2022
[5] Carleton University, department seminar	March 2022
[4] University of Texas at Dallas, department seminar	March 2022
[3] University of Southern California, paleo/environmental seminar series	February 2022
[2] University of Chicago, department seminar (+3 subsequent internal talks)	December 2021
[1] University of Nebraska at Omaha, department seminar	November 2021

## **SKILLS**

---

- Extensive experience with multicollector inductively coupled plasma mass spectrometry (Neptune Plus), with specific expertise in measuring sulfur and calcium isotope ratios. Updated programs used for data reduction and quality control of sulfur isotope ratio determinations.
- Significant experience with electrospray orbitrap mass spectrometry. Prior work focused on development of methods to simultaneously measure sulfate  $^{34}\text{S}/^{32}\text{S}$  and  $^{18}\text{O}/^{16}\text{O}$  isotope ratios.
- Significant experience with gas-source isotope ratio mass spectrometry (MAT-253, Delta V). Developed a data reduction pipeline for IRMS sulfur isotope measurements.
- Significant experience with synchrotron spectroscopy. Specific expertise working at the sulfur K-edge of beamline 14-3 of the Standard Synchrotron Radiation Lightsource.
- Extensive MATLAB experience with expertise in modeling and data processing. Constructed parallelized box models with isotopic fractionation and flexible river chemistry inversion tools.

## **TEACHING AND MENTORING**

---

- Undergraduate research mentor, project on river calcium isotope ratios. 2022 – present
- Earned Caltech *Certificate of Interest in University Teaching* by completing formal coursework and participating in workshops focused on evidence-based and inclusive teaching practices. 2020 – 2022
- Teaching assistant for *Paleoceanography*, a mixed undergraduate/graduate course at Caltech taught by Jess Adkins. 2020 – 2021
- Teaching assistant for *Marine Geochemistry*, a mixed undergraduate/graduate course at Caltech taught by Jess Adkins. 2019 – 2020
- Summer student research mentor, project on plant sulfur isotope systematics. 2018

## **PROFESSIONAL ACTIVITIES**

---

- Primary and/or co-convener of AGU session, *Earth Surface Processes and the Global Carbon Cycle*. 2020 – 2023
- Primary convener of AGU session, *Understanding the Influences of Sedimentary and Oceanographic Processes on Geochemical Archives*. 2021 – 2023
- Co-convener of AGU pre-conference workshop *End Member Mixing Analysis in Hydrogeochemistry with Case Studies*. 2023
- Co-convener of Goldschmidt session, *Ocean circulation, carbon and climate: Perspectives from proxies and models*. 2023
- Primary convener of Goldschmidt session, *Cenozoic and Mesozoic climate change: synthesizing carbon cycle perturbation, surface processes, ecology, atmospheric composition, and seawater chemistry*. 2022
- Peer reviewer: *Science Advances*, *American Journal of Science*, *Earth and Planetary Science Letters*, *Geochimica et Cosmochimica Acta*, *JGR: Earth Surface*, *JGR: Biogeosciences*, *Chemical Geology*, *Nature Communications Earth & Environment*, *Applied Geochemistry*, *ISME* 2020 – present

## **UNIVERSITY AND DEPARTMENT SERVICE**

---

- Restarted and organized weekly UChicago Earth History Journal Club. 2022 – present
- Founded Caltech Earth History Journal Club, led >100 meetings, \$250 budget. 2018 – 2022
- Organized a weekly seminar series at Caltech. Sought diverse participants and >96% of speakers were female (27/28 speakers). Managed speaker invitations, travel, and meeting schedules, oversaw a \$5,000 budget. 2018 – 2019
- Member of search committee for director of Caltech’s Center for Teaching, Learning, and Outreach. 2022
- Speaker on Caltech graduate fellowships panel for four years and at “FUTURE Ignited”, a graduate recruitment event for URM students. 2017 – 2020

## **COMMUNITY SERVICE AND OUTREACH**

---

- Co-taught a six-week summer geoscience course for underserved Chicago high school students through UChicago’s Office of Special Programs. This effort grew out of prior work facilitating Saturday morning geoscience classes. 2022 – 2023
- Organized two distinct four-lecture seminar series for LA schools. 2017 – 2022  
Participated as a speaker in each program and recruited other speakers, resulting in >40 hour-long lectures given to middle and high school students.
- Volunteer at the Los Angeles March for Science and Caltech companion event Science for March, as well as the UChicago South Side Science Festival, and presenter in LA for the Long Beach Urban Math Collaborative. 2016 – 2023
- Participated in ~10 “Science nights” at LA elementary/middle schools. 2016 – 2017
